My NAME is DAVID Eugene McINTYRE Alias Real NAME Mikel David Roman SR. This is AN Address to the United States Federal Court House 501 West 5th Street Suite 3300 Austin, Texas 78701. Policies of writs AND legal Papers SAY you need to DRAFT Politically correct Measurements AND Guidelines to file A writ or Legal Paper. But note they ARE NOT rules OR laws But Policies. The rules to follow in DRAFTING any writ or Legal Paper is that you are to Be Competent, efficient, effective AND legible so that the courts CAN effectly AND Competently enforce the laws for you. I'm not educated enough to draft A Politically correct Policy Legal Paper, But I do know how to follow the rules of the courts so they can Assist me Competently AND efficiently. I do not have any Access to A computer or typewriter, so I'm forced to do this entire Legal Paper in hand print so that it is legible. To deny this Legal Paper is to deny me due Process OF LAW AND to deny me Access to the Courts! Please Be understanding with me. I Am AN inmate in the state OF TEXAS!

Problems & Compliants:

The Texas Department OF Criminal Justice Institutional Division, is Actively operating 2 Major Organized Crime operations. #1) The data entry operations. #2) The Micro-film industries. I AS A Representative OF United States security Council have Already shut down Both of the operations 3 different times, for computer HACKING OF BANKS AND

TARGETING Rich people for Organized Crime operations. Which were responsible for Black Male, Extortion, human Trafficking, Holding People for Ransom, AND HACKING All kinds of Banking organizations around the world. Inmates Chuck Betrick is responsible solely for the computer hacking programs for just about every Banking and Credit Beaugh Business around the entire world. He makes copies of his programs of Micro-Rich and sends them to the Roman Catholic Church. I took all of his MicroRich floppies away from him 2 times and gave them to Naval Intelligence so they could straighten out all of his hacking. There is another inmate I know by reputation of Hammer the clerk in Mr. Tillies electronics class that is responsible for setting up prostitution rings and human trafficking rings by using various accesses to the open records act! He's also guilty of Bank Hacking for the Guards of TDCJ-ID as well as Chuck Betrick and many other data entry operations and computer programmes.

Also note that the Microfilm industry is using the information as well as the data entry operations to seek out Rich People by knowing who has new cars, and expensive cars, and Antiques that are registred to them and they are Black Maleing the owners and stealing their cars and homes ect... by organized crime activities. The micro film industry is being used to search out more extremely dangerous ex-felons and coming to knowlege of wealthy people whom they are forcing into Organized Crime Activities.

Evidence of Compliance:

#1) Who has ever heard of a Microfilm Computer which has to be programmed with new programs every day for years on hand running start in a row! #2) The Read Only Memory Chips in ~~the~~ ^{on} Chuck Betricks Microfilm Programming computers even the main frame has Read Only Memories of every registered Board that is hacking from the data entry operator Programming Boards and Stations. The Videos of security surveillance of the vehicle registration data entry operations shows inmates writing down names, addresses, and types of cars that they are interested in! Why would they be writing all this down, without a reason? Common sense tells you they are operating Organized Crime Activities! #3) The Microfilm industry is focusing on people who have been on parole or in court for Murder, extortion, kidnapping, Prostitution, Auto theft, Human Trafficking, and many other types of Organized Crime Activities. And the inmates are writing down names, addresses, and crimes committed, why so much written information and they are taking it home with them as known and reputable Gang members? Answer they keep building armies by force of setting others up. They know if they do it once, they can be made to do it again by force and manipulation! There is also many other types of vital, private information which they have access to which gives them the abilities to change names and steal identities and credit accounts! Inmates steal commissary accounts by computer hacking and create new accounts

in Both commissary And Banks For Both Guards And inmates. Truthfully computers And telephones Both need to be taken away from All inmates! All they do is operate organized Crime Activities of every type imaginable with them. They even put contracts out on Guards^{And inmates} with Phones Both TDCJ-ID Telelink which is an illegal operation By A.T. And cell Phones Both. Common sense tells you criminals will be criminals if they can get even one little edge on you! No wonder so many Good Cops And Guards die like flies led to sugar!

LAWs OF Evidence Presented:

- Organized Crime Activity
- ID Theft
- Bank Robbery
- Murder For Hire
- Terrorism
- Auto theft
- Guard Inactivity And Money Laundering
- Black Mail
- Human Trafficking
- Prostitution
- Many others!

Remedies: To completely shut down Permanently All data entry operations, Vehicle Registration operations, Microfilm operations Take All computer Access AWAY from inmates UNCONDITIONALLY! Take All Telephones AWAY from inmates And if caught with one free

WORLD CHANGE OF ORGANIZED CRIME ACTIVITY, NO MATTER
WHAT THEIR EXCUSES! IPTDCJ-ID FAILS TO COMPLY WITH
BANS; GIVE CRIMINAL CHARGES TO ALL WHO SUPPORT THE
ORGANIZED CRIME ACTIVITIES AND PRESS CHARGES AGAINST
THEM TO THE FULL EXTENT OF THE LAW. THE INMATES ARE
INDEED TERRORIZING THE ENTIRE STATE OF TEXAS FROM INSIDE THE
FENCES OF JAILS AND PRISONS! FACT!
